cjw322@cornell.edu • (818) 245-2234

EDUCATION

2018 - 2022 · Cornell University

- **GPA: 3.68 · Related Coursework:** Object Oriented Programming & Data Structures, Data Structures & Functional Programming, Discrete Structures, Introduction to iOS App Development, Data-Driven Web Applications, Intermediate Design & Programming for the Web

2014 - 2018 · La Canada High School

- **Academic GPA: 4.7 · Related Coursework:** AP CS Java, Honors CS C++

EXPERIENCE

Consultant / TA · Cornell Department of Computer Science   2019 - present

- Held office hours to help students in CS 1110: Introduction to Computing with Python, held one-on-one tutoring sessions, and graded assignments

Web Designer · alpha Kappa Delta Phi Intl. Sorority, Inc.   2019 - present

- Managed the official website for the Cornell chapter of aKDPhi (cornellakdphi.com)

Intelligent Systems Subteam Member · Cornell Data Science   2018 - present

- Worked with a team of 6 to develop an iOS app with a custom seedlings classifier
- Conducting research with a teammate under Stanford professor David Scheinker to find and predict trends in health data using ML models (e.g. linear regression, random forests)

Cornell Creatives · Cornell AppDev Hack Challenge   2018

- Coded an app that would connect student freelancers with students requesting their services
- Worked with a team of 4 (another iOS programmer, a backend developer, and a designer)

EXTRACURRICULARS

Sponsorship Coordinator · BigRed//Hacks   2019 - present

- Raised sponsorships for Cornell's largest hackathon to reach a team goal of $40,000
- Individually reached out to 40 company representatives and raised $10,500 from partnerships with companies such as Bloomberg and American Express

Outreach Volunteer · Women in Computing at Cornell   2018 - 2019

- Mentored students from local elementary, middle, and high schools on basic coding concepts
